

Arcadia Global School efficiently implemented a learning program with Scalefusion MDM.

## About the Company

Arcadia Global School, a prestigious British school in Dubai, is dedicated to providing a holistic K-12 education. Their mission is to positively impact the lives of every student, irrespective of their background, by creating a global learning environment.

## Business Goals

The vision of the School is to be a global provider of holistic K-12 education and to make a positive impact on the lives of every child who passes through their schools, regardless of their background.

They wanted to implement a robust learning program to establish a smooth interaction between the teacher and student to realize their goal.

## Challenges

The key challenges faced by Arcadia included the need to purchase a significant number of devices for the students. To control costs, they sought a solution that would efficiently manage student-owned devices but restrict their usage inside the school premises. An MDM solution here could be instrumental in managing the personally-owned devices.

They wanted to ensure that although students are using their own devices, they should not misuse them inside the schools for any non-essential purposes. They wanted to restrict the device usage to a few apps and websites during school hours.

The school wanted to reduce the cost to the company, which could be achieved if the devices were managed with an MDM solution.

### Industry

Education

### Solutions & Features

- Personally-owned Device Management
- Web Content Filtering
- Device Monitoring and Management
- App Management
- Content Management
- Location Tracking
- Geofencing

### Key Benefits

- Efficient content delivery
- Seamless device management
- Premise-based automated policy configuration
- Web content filtering
- Data protection

### Why Scalefusion

- Industry-leading MDM provider with a simplified and intuitive mobile device management experience
- Easy to configure, deploy and upgrade devices and apps across the entire lifecycle
- Leading choice for a scalable solution with multi-OS support

## Solution

Scalefusion Mobile Device Management offered a transformative solution to this challenge. Scalefusion provided Arcadia with a unified platform to manage, control and secure the devices owned by students when inside the school, ensuring a focused and secure learning environment.

Most importantly, a GPS-based profile switch would trigger once the device enters the school premises. The device then transforms into an educational gadget – allowing apps and websites that promote “for school” content. Once the student leaves the geofence-based location of the school zone, the device transforms back into a personal device with access to all play apps as normally conditioned. Additionally, no personal data or information should be accessed by the school.

The Application & Content Management feature enabled seamless app & content distribution to all the devices at once. The Kiosk Mode enabled the school to lock the devices into a single application or multiple required applications. Wi-Fi Configuration helped the student devices to get automatically connected to the school network once inside the school premises. The Browser Management feature further ensured students could not access unsafe websites while the device was within the school premises.

Overall, Scalefusion MDM not only reduced upfront costs but also provided a sustainable, cost-effective solution in the long run.

## Key Results

Working with Scalefusion has brought out the following proven results for Arcadia Global School:

- **Reduced Costs:** Efficient device management led to cost control.
- **Increased Productivity:** Easy curriculum-based content management and Kiosk Mode led to better student focus
- **Improved Efficiency:** Streamlined processes, ensuring a proper learning environment.

## Testimonial

“For us, providing uninterrupted learning for our students was the top priority. We wanted to implement a robust interaction program and to ensure that the students have the freedom to use their own devices but at the same time not misuse them during school hours. We are glad we chose Scalefusion to help us achieve this goal.”

- Jothi Ramsubramanian, ICT Engineer, Arcadia Global School.

### About Scalefusion

Ambitious companies around the world trust Scalefusion to secure and manage endpoints including smartphones, tablets, laptops, rugged devices, POS and digital signages. Our mission is to make Device Management simple and effortless along with providing world class customer support.
